Message from the President and Representative Director

Thank you very much for your continued support.

Through numerous mergers and acquisitions, we have strengthened our business as a holding group and have also expanded the scale of our earnings. Although we continue to be affected by a number of external factors, including the still tense international situation, domestic financial market trends, and ever-changing consumer needs, from the perspective of ensuring future profitability and a stable business structure, we believe that we are now in a situation where we need to shift to an even more robust organization and business structure.

We have already announced this shift at our company's financial results briefing and general shareholders' meeting. In the medium to long term...

“Creation of new original IP content”

“Creation of video content in line with global standards.”

“Developing new sales channels in the advertising field and expanding the digital domain”

We view these three objectives as important issues in our business, where we will focus our resources into each of our subsidiaries in the general entertainment business, video production business, and advertising agency business to the maximum extent possible. At the same time, by creating new content that can become a pillar of future earnings, we will carry out major reforms aimed at making great strides in the future.

Even as the social structure and corporate nature continue to change with the times, we will do our utmost to continue to grow as a sustainable corporate group that contributes to the enhancement of corporate value. As such, I would humbly like to ask for the continued support and encouragement of our stakeholders, including shareholders, investors, and financial institutions, as we pursue these ventures going forward.

Company Name Background

“Key” + **“Holder”**
crucial (role, etc.), essential owner, supporter

“Key” refers to the belief in our support of all our stakeholders (shareholders, clients, employees, etc.) and various industry and business development. By "holding" them firmly, our aim is to push a variety of projects forward, growing with innovation and dynamism into an appealing group of companies. It is with this notion in mind that the name "KeyHolder" was chosen.
